

Are you interested in applying for export financing?

The Nordic Environment Finance Corporation, NEFCO, can provide buyer credit financing in the range of EUR 500,000 to EUR 5,000,000 for environmentally sound investments and deliveries of goods and related services.

NEFCO, in close co-operation with Nordic Export Credit Agencies, can finance up to 85 per cent of the total value of Nordic exports with a buyer credit in Belarus, Russia and Ukraine.

Nordic cleantech innovations and environmental technology in the industrial sector normally generates considerable environmental benefits, such as energy saving, when replacing outdated technology in industrial facilities.

The Nordic Environment Finance Corporation, NEFCO, is an international financial institution established in 1990 by the Nordic governments. We have solid experience in financing small and medium sized projects with environmental benefits in Eastern Europe.
