Tender Opening: 2018-05-24, 10.00 local time

This Invitation to Tender follows the General information about procurement under DemoUkrainaDH, available on <http://www.demo-dh.org.ua/en/procurement.html>.

Purchaser:

Chernivsiteplokunenergo

Address: 58018, Chernivtsi, Maksymovycha str., 19a

Reg. no. 34519280

The project organisation during the tender period will consist of employees from the Purchaser assisted by consultants from ÅF-Industry AB, Sweden including the local consultant SEC Biomass, Ukraine..

Project:

The Purchaser wishes to rehabilitate and modernise one of the micro district heating systems in Chernivtsi. The project includes upgrading of a boiler house with a new 2.5 MW biomass boiler, which is the subject of this tender. The main part of the Scope of Supply is:

1. One (1) 2.5 MW biomass boilers with fuel storage
2. Two (2) sets for distribution pumps, each with two (2) distribution pump units with accessories
3. Two (2) heat exchangers for separation of part of the network
4. Water treatment equipment
5. Remote control system

Tendering and Contracting Procedures:

The Purchaser intends using proceeds of a loan from Nordic Environment Finance Corporation (NEFCO) and a grant from Swedish Development Cooperation Agency (Sida), administered by NEFCO, for eligible payments under the contract for which this tender is made.

The Purchaser now invites sealed tenders from contractors for the following contract to be funded from part of the proceeds of the loan.

The contract will be a Supply and Install contract based on Orgalime SI 14 comprising: detailed design, delivery, installation, commissioning, issuing of necessary documents, approval of equipment in operation by the Purchaser and Ukrainian authorities to a fully operational state within the delivery limit(s). The project implementation period is 2018 with intended commissioning as soon as possible after start of heating season 2018.

The tendering procedure and the contract will be subject to NEFCO's Procurement Guidelines, which follow internationally recognised practices applied by International Financial Institutions (IFIs). The tender is open to firms from any country, provided that the firm is not ineligible or prohibited from tendering under national or international law or are subject to sanctions imposed by the European Union or the United Nations Security Council. The tenderer and offered facilities must comply with the following qualification criteria, further detailed in the Instruction to Tenderers and the Technical Conditions.:

- Average turnover at least 1 million EUR during the last three years
- At least 4 performed projects during the last 2 years of comparable size and complexity in the District Heating sector.
- To have an available service organisation in Ukraine at least from the start of the defects liability period.

The tender evaluation will in addition to the tender price include assessment of the offered plant and equipment and compliance with the DemoUkraineDH objectives as a demonstration project.
